

Power BI Task 1

The screenshot shows the Power BI desktop application interface. The main area is a blank report canvas with a placeholder message: "Build visuals with your data. Select or drag fields from the Data pane onto the report canvas." Below this message is a small icon illustrating the process of dragging a field from the Data pane to the canvas.

The top navigation bar includes tabs for Clipboard, Data, Queries, Insert, Calculations, Sensitivity, Share, Copilot, and a ribbon of icons.

The right side of the interface features the "Data" pane, which contains:

- A search bar labeled "Search".
- A tree view of data sources:
 - > Agriculture NCDEX
 - > Electricity NCDEX
 - > Energy NCDEX
 - > Industrial NCDEX
 - > Livestock NCDEX
 - > Metal NCDEX
- A section titled "Visualizations" with a "Build visual" button and a grid of visualization icons.
- A "Filters" section.
- A "Values" section with a placeholder "Add data fields here".
- Drill-through settings: "Cross-report" (Off) and "Keep all filters" (On).
